

# soap dispensers

Thoroughly clean hands help to eliminate the chance of cross infection.

Our soap dispensers provide a quick and hygienic way to wash your hands.

## Manual Dispenser

- Dispenser lever, made of Polygiene antibacterial technology, breaks the transmission path of diseases.
- Easy to use, hygienic system with integrated one-way valve to prevent clogs and drips.

*Models available in white or metallic finishes.*

## Automatic Dispenser

- Touch-free dispensing of superior quality foam soap for the most luxurious hand washing experience
- Promotes healthy hand washing while preventing the spread of germs and bacteria.
- Smart sensor and patented touch-free technology detects the users hands every time - ensures flawless drip-free, clog-free and reliable operation.

*Models available in white or black/gray finishes.*
