

EcoClean™

Urinal and Toilet Treatment

EcoClean™

Targets the Real Problem

Most urinal and toilet systems simply mask odours with fragrance whereas the EcoClean™ system targets the real problem which is scale buildup.

Why Implement a Urinal & Toilet System?

Inorganic Scale Formation

Inorganic scale compounds such as calcium carbonate form when elements in flush water mix with salts present in urine.

Organic Scale Formation

As urine mixes with colder flush water, uric acid becomes insoluble resulting in organic scale formation.

Scale Buildup

Scale build-up can cause staining on fixtures, costly plumbing repairs, and allows malodorous and infectious bacteria to flourish.

Bacteria Growth

Toilets and urinals are prone to contamination. Studies show that daily cleaning of urinals and toilets is not sufficient to keep bacteria populations low enough to eliminate cross-infection risks

Unpleasant Malodours

Urinals and toilets are a major contributor to washroom malodours. Combating these malodours is an important component of a sound washroom care program and critical to ensuring a pleasant user experience.

EcoClean™
Urinal and Toilet Treatment

Product Overview

The EcoClean™ system is an effective solution for controlling the growth of hard water and uric scales, and potentially harmful bacteria.

Advanced Dispensing Technology

- The EcoClean™ system is installed above each urinal/toilet with a direct feed line into the fixture.
- At regular intervals and independent of the flushing system, the EcoClean™ dispenser injects directly into the sparge pipe providing continuous, cost effective treatment of toilets, urinals and plumbing lines.

An Innovative, Biologically Based Solution

- Our specially formulated and proprietary urinal and toilet treatment, EcoClean™, interrupts scale formation and controls the growth of bacteria that can cause malodours, leaving behind a subtle fresh scent.

Product Options & Specifications

- Colours..... Black, White, or Designer Grey
- Dimensions..... H: 22cm, W: 12.5cm, D: 10cm
- Power..... 2 D Batteries, included
- Sustainability... Unit recycled at end of useful life

Service Program Details

- All equipment is provided free of charge eliminating any capital outlay.
- **Citron Certified Technicians** maintain each system on a pre-determined schedule.
- Exclusive **CitronSync™** technology is your guarantee of service.
